EXECUTIVE SUMMARY

Product executive with 14+ years of building and scaling multi-product CX B2B SaaS portfolios across the US, Middle East, and Asia. Took an AI-powered CX platform from zero to \$6M ARR while owning portfolio strategy, org design, and commercial execution for a \$350M enterprise. Proven expertise in SAFe-based Agile delivery, PI planning, portfolio governance, and cross-functional team leadership, delivering scalable cloud and AI-driven solutions.

PROFESSIONAL EXPERIENCE

HEAD, PRODUCT MANAGEMENT & DESIGN *Bahwan CyberTek Inc, Dubai* 2016 - Present

Reported directly to EVP (BU Head) throughout tenure; upon EVP's transition, reporting line moved directly to CEO

CX Portfolio & Product Leader

- Served on 3-person portfolio leadership team for CX portfolio (droptthought, dtworks, krita.ai); developed 3-year portfolio vision and strategic investment roadmap guiding \$10M in annual capital
- Defined strategic themes and portfolio OKRs; portfolio achieved 60-70% of objectives while maintaining alignment across cross-functional teams
- Established epic threshold governance (>\$50K requiring portfolio approval), accelerating decision velocity for smaller initiatives while preventing low-ROI investments; improved investment discipline and portfolio value delivery
- Built 3-level maturity model assessing Agile/process and UX design capabilities across portfolio; applied quarterly to inform hiring/capability investments, justify budget allocation, and create transformation roadmaps

AI & Product Platform Strategy - droptthought & krita.ai

- Led 1.2 mn USD M&A evaluation for AI capability acquisition - accelerated product roadmap by 18 months
- Launched AI product suite: text analytics, askdroptthought (LLM-powered Q&A), and predictive capabilities (churn, root cause, what-if)
- Defined AI feature success metrics: customer adoption rate (20% of enterprise customers using AI features within 2 months), time-to-insight reduction (manual analysis: 2-3 days → AI-assisted: <1 hour), and AI-driven revenue attribution (\$1Mn ARR from AI capabilities)
- Established AI product-market fit validation framework: beta cohort testing with 10-15 design partners, qualitative feedback loops, and quantitative usage thresholds (>60% weekly active usage) before GA launch
- Architected shared service platform consolidating authentication, data pipelines, and ML infrastructure across 3 products; reduced duplicate infrastructure costs by 25%
- Established AI governance framework with documented model evaluation criteria (accuracy >85%, hallucination rate <5%, response explainability), and human-in-the-loop workflows for customer-facing AI features
- Designed tiered AI capability packaging: base analytics in all plans, advanced AI features (predictive analytics, automated insights) in premium tiers - driving upsell

Strategic Leadership & Executive Influence - droptthought

- Led product strategy and AI roadmap for enterprise SaaS platform serving Fortune 500 clients like Cisco, HP and Adobe and government entities like MoH-Oman and HDB- Singapore
- Built globally distributed product organization (100+ across US, India, Taiwan, Middle East); established hiring frameworks, career ladders, and performance systems

- Deep Middle East expertise - led regional GTM, Arabic localization, government engagement, and DESC ISR and ISO 27001 compliance across UAE, KSA, and Oman
- Championed design system initiative across product lines – recognized UX inconsistency as a scaling risk, approved investment, and governed delivery; reduced design debt and enabled faster, consistent product iteration
- Developed analytics framework linking experience and operational data - presented directly to clients as a strategic advisory tool; institutionalized across CS insights team as a repeatable insights' methodology
- Led product briefings with Deloitte during independent audit; discussions directly influenced senior management's decision to invest in the platform
- Sunset an underperforming product, reallocating resources to higher growth opportunities

Commercial Impact & Revenue Growth- drophought

- Grew product from 0 to \$6M USD ARR; developed solutions supporting \$25M USD+ in cross-sell pipeline across vertical sales teams
- Owned product P&L – revenue targets, margin, and \$3M annual budget; reported ARR growth, pipeline contribution, and budget performance directly to CEO and EVP
- Designed and led multiple multi dollar airport CX transformation pursuits – coordinated various BCT teams and an external vendor across solution architecture and cross-BU alignment; converted work into a reusable solution taken to market by BCT sales
- Drove 40% expansion revenue and maintained 96% customer retention through customer-centric product enhancements and executive relationship management
- Led deal shaping on \$100K–\$6M pursuits; partnered with sales and SI teams to reposition value proposition - increasing RFP win rate from 14% to 35%

CO-FOUNDER *Epiroot – Chennai, India*

2017 - 2019

- Bootstrapped EdTech ERP for tier 2/3 Indian schools; acquired 50+ paying customers in year one

SENIOR MANAGER, AI & ANALYTICS *drophought – Santa Clara, CA,*

2012 - 2015

- Built and scaled ensemble ML capability for enterprise text analytics from concept to production, achieving ~20% improvement in classification precision
- Built HumInt, an in-house annotation pipeline with automated sentence parsing, dual-annotator consensus workflows, and IRR-based quality gates, enabling training dataset creation with measurable quality controls
- Designed and deployed annotator productivity analytics dashboard tracking throughput, agreement rates, and escalation patterns, reducing labeling cycle time by 35%
- Co-developed investor pitch deck with CEO and personally sourced investor introductions - contributed to acquisition outcome; acquirer (BCT) subsequently hired to lead product organization

SELECT ACHIEVEMENTS

- Fastest promotion to Head of Product in BCT's history- recognized for commercial impact and cross functional leadership across product, engineering, and sales
- Nominated for two executive programs – Kellogg Executive Education certificate in AI-Driven Product Strategy and McCormick certificate in Big Data to Big Profits
- AWS Certified Cloud Practitioner & AWS Certified AI Practitioner
- Certified SFA 6 Lean Portfolio Manager (Agile at scale)
- Certified Customer Experience Profession

EDUCATION

- Dartmouth College – Master of Engineering Management
- Anna University – B.E., Electrical & Electronics Engineering

2010 - 2012

2003 - 2007
